

# Net-Zero

## ENERGY COALITION

Do you believe that **zero energy building** is the way of the future?

Do you wish we could **change faster**?

Would you like to **do something** about it, professionally and personally?

### NOW YOU CAN.

Net Zero Energy Coalition has created an easy and inexpensive way for you to be part of our mission to make zero energy building happen faster.

Join **TEAM ZERO**, our growing network of members, allies, and sponsors who have already said yes to those three questions and acted on it.

We know how hard it is for businesses and professionals to say yes to all the requests for money. The reality is that you can't say yes to everyone. **But you can say yes to yourself and your convictions.**

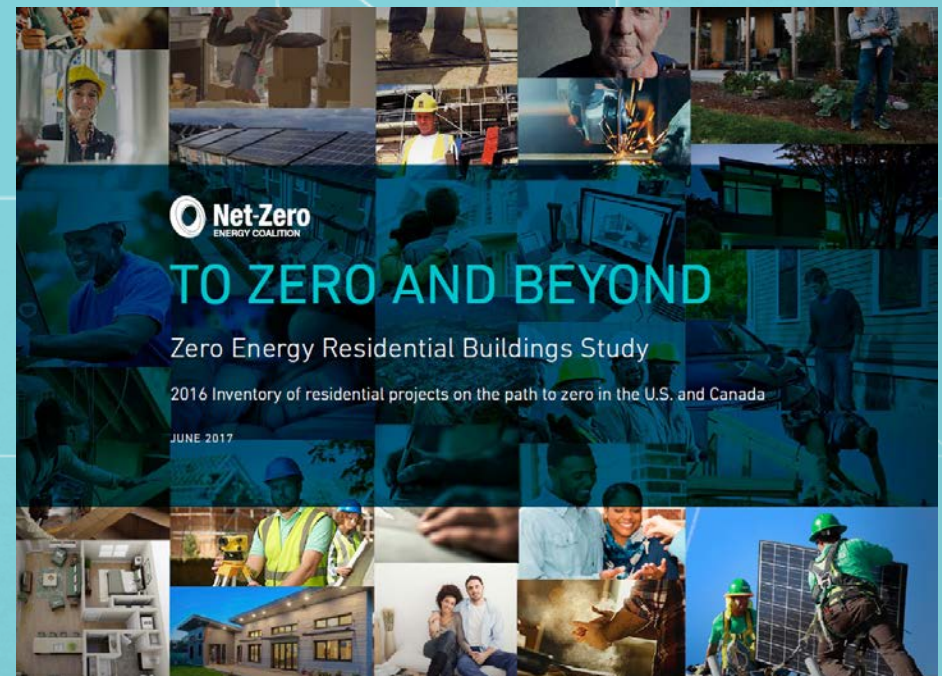

You can join **TEAM ZERO** as a **CARBON HERO SPONSOR** for as little as \$300 a month.

### What have we done so far?

Momentum towards zero energy market adoption is growing faster than many people think. The Coalition is actively driving that momentum by:

- Conducting the only inventory of residential zero energy projects in North America, with documented double-digit growth rates, thereby encouraging accelerated adoption of zero energy
- Providing a data-rich zero energy case study database, enabling project teams to more easily build zero energy projects using best practices and lessons learned
- Spearheading and facilitating collaborative initiatives among zero energy stakeholder organizations
- Offering educational programming via webinars and events nationwide, in cooperation with allied organizations

For more information, visit the [NZEC website](#) and view this brief [video](#) about our impact.

As a **CARBON HERO SPONSOR**, you'll be keeping company with key industry organizations like ILFI, PHIUS, DOE, RMI, and EEBA, builders, utilities, product manufacturers, architects, and other zero energy advocates.

You'll demonstrate your leadership in the zero energy community.

You'll contribute your ideas, knowledge, and experience to accelerate market adoption of near zero, zero and positive energy.

You'll become part of the only organization in North America solely focused on facilitating zero energy collaboration and bridging the knowledge gap between the pioneering residential developers, builders, and designers and the mass market.

Sign up by 1/31/18 to receive special recognition as a **FOUNDING SPONSOR**.

CARBON HERO Category	Annual Fee	Monthly Option	Custom Data Queries	Benefits (in addition to TEAM ZERO benefits & custom data queries)
